

# ONL Project Update

Open Network Linux Project Relaunch

Connect. Collaborate. Accelerate.

**OPEN**  
Compute  
Project®

# Initial Goals

- Bring repository up to date
  - Merge open pull requests
  - Work with ODMs to fix any issues
- Update/fork repositories
  - Any repository under Arista/BSN ownership
- Get input from community about forming a steering community

# Bring repository up to date

- Merged over 42 open pull requests
  - Some had issues and had to be reverted
  - Images built after initial set of merges
- Post mass-merge
  - Each patch checked and image built
  - 21 PRs still outstanding, 4 post mass-merge

# Update/fork repositories

- All repositories forked under opennetlinux project  
- <https://github.com/opennetlinux>

# Establish Steering Committee

- Still working on the concept
  - Input from a few OCP members
- Updates have been sent to the mailing list
- Looking for more input from the community

# Thank you!

- Get involved
