OCP Enterprise Connectivity Solutions

Bringing Together OCP Projects and External Communities

Jack Redpath, Lead OCP-ECS

OPEN POSSIBILITIES.

OPEN
COMMUNITY®

ECS: Network Subgroup (Incubation)

NETWORKING

Collaboration Across Communities

- Building bridges between projects, both inside OCP and external
- Supporting the contributions of Whitepapers, Case Studies, Deployment Plans

Focus on Enterprise Adoption

- Ready to deploy, end-to-end OCP connectivity solutions package
- Develop best practice solutions in connectivity, continue open innovation in software and hardware disaggregation
- Ecosystem of partners (system integrators), suppliers (ODMs/OEMs) + independent software vendors (ISVs), and adopters (enterprise)

OPEN POSSIBILITIES.

ECS Focus

NETWORKING

Enterprise needs ready to deploy solutions for:

- Campus/corporate area networks
- Branch office
- Warehouse/distribution facilities
- Retail locations
- Remote users

Answers to:

- Deployment planning, design best practices
- Support / Operations
- Technical: Zero Touch Provisioning(ZTP), Wi-fi and 5G, Power over Ethernet(PoE) ***no duplicate efforts, leverage existing work

OPEN POSSIBILITIES.

Conclusion

Enterprise has:

- Diverse set of networking needs
- Challenges being worked on across projects
- Opportunity for collaboration, to build OCP adoption

Solutions are:

- More than hardware/ software
- Joint community end-to-end effort
- How we drive adoption in the enterprise
