OAI Project Overview

OPEN
ACCELERATOR
INFRASTRUCTURE

- Formed 3/2019, under OCP Server Project
- To build the infrastructure for a fast adoption of upcoming Accelerator based products that are compliant with the OAM spec
- Scope:
 - physical and logical aspects such as electrical, mechanical, thermal and serviceability
 - management and hardware security,
 - produce solutions compatible with existing/traditional operation systems and frameworks

OPEN POSSIBILITIES.

OAI Group Workstreams

- OAI System
 - UBB/OAM spec revisions, System topology, HIB/Chassis spec ,System management and security requirements
- Power
 - Focus on Power delivery of OAI, including power requirement, design specs, reference designs, etc.
- Cooling
 - Establish specifications, framework, standardization and best practices of Liquid Cooling Solutions for OAI and OAM, from module level to system level; Interchangeability between OAM liquid cooling and OAM air-cooled cards, and fully integrated liquid cooling modules in a server chassis
- High Speed Serdes
 - Next Gen high speed research such as 112G PAM4, PCIe Gen5/6
- OAM Diag Tool
 - Common vendor-agnostic utility for OAM management

OPEN POSSIBILITIES.

Industry Adoption

OPEN POSSIBILITIES.

OAM Current Status

- OAM Spec v1.5 to be released by end of 2021
- We are working with accelerator suppliers to enable their OAM-based solutions

Agenda

Workshops	Date	Time
Open Accelerator Infrastructure Project Overview	11/10/2021	1:00 PM -1:10 PM
Liquid Cooling: Drivers, timelines and a case for industrial convergence on coolant temperatures	11/10/2021	1:10 PM -1:25 PM
OAI Workstreams Update: System design, High Speed serdes and Power	11/10/2021	1:25 PM - 1:40 PM
Lightning talk for OAI Cooling and OAM Tool	11/10/2021	1:40 PM - 1:50 PM
[Panel] Open and Interoperable AI Training Clusters	11/10/2021	2:00 PM - 2:50 PM
Zion Modular Platform Architecture Overview	11/10/2021	3:00 PM - 3:20 PM
Intel Ponte Vecchio Compute Accelerator OAM Product and System	11/10/2021	3:20 PM - 3:30 PM
[Video] ON-DEMAND: Improvement of OAI System Management		
[Video] OAM Power Delivery Design Challenges and Recommendations		

OPEN POSSIBILITIES.

Call to Action

- Project Wiki with latest specification : <https://www.opencompute.org/wiki/Server/OAI>
- How to get involved in the Project/Sub-Project Community
 - Mailing list: <https://ocp-all.groups.io/g/OCP-OAI>

OPEN POSSIBILITIES.

Thank you!
